

# KORI JACOBSEN

I'm a marine electrical contractor and freelance web developer with a passion for learning new technologies and enhancing my skillsets. I have mainly been programming on the side for my own projects but I am now actively looking for work in the industry.

## WORK EXPERIENCE

### Freelance Web Development

2022 - Present

Freelance website design and development using Webflow, Next.js, and Remix.js for small businesses

SEO including website performance optimisation, keyword targeting, and image compression

Personal SaaS application development including full authentication integration and stripe payment integration

Currently developing a small startup based on real-time natural language understanding. The project is built with Golang, Typescript, Next.js, Fly.io, Supabase (Postgres), Vercel, Stripe

Entries into various Kaggle competitions for Machine learning, and entry into Google's 2024 'Google Gemini API Competition' with a Chrome Extension submission

### Marine Electric | C-Linx Marine

2014 - Present

12-24V DC & 240V AC Electrical work on all manner of private and commercial vessels

Small scale engineering and shipwright work

Maintenance, install and repair for all types of electrical and electronics products

Management of job scheduling, client communication, product orders, and business admin
